

Data centre 2 ISO 27001 certificate

Certificate of registration

Issued to: the operator of data centre 2

Standard: ISO/IEC 27001 information security management

Scope: colocation hosting, power, cooling, and physical security of the data centre

Certificate issued on: 2023-10-19

Certificate valid until: 2026-10-19

A certification body has audited the information security management system of the operator against the standard.

The registration stays valid while the yearly surveillance audits are passed.
